Career Objective

Recent MCA graduate with a strong foundation in Java, Spring Boot, SQL, and web technologies. Seeking a Software Engineer/Java Developer role where I can apply my technical skills, contribute to innovative projects, and continue growing as a software professional.

Education

Master of Computer Applications (MCA) SASTRA University CGPA: 8.2	2023 – 2025
---	-------------

Bachelor of Computer Applications (BCA) K.B. Joshi Institute of Information Technology, Pune CGPA: 9.42	2019 -2022
--	------------

Skills

Programming Languages: Java, SQL, Servlets, JSP	Frameworks: Hibernate, Spring Boot
Web Languages: HTML, CSS, JavaScript, React Basic	Databases: MySQL.
Tools: Eclipse IDE, MySQL Workbench, Visual Studio, Spring Tool Suit	

Professional Experience

ERP DevOps Setup Analyst | Tata Consultancy Services, Pune | Oct 2023 – Sep 2025

- Administered Oracle ERP R12 system, managing user access, security controls, system configurations, supporting over 200 users across multiple departments.
- Performed MySQL database operations and optimized SQL queries for improved performance.
- Provided end-to-end functional and technical support, troubleshooting module-level issues, and delivering continuous improvements to enhance business operations.
- Collaborated with cross-functional teams to develop, test, and debug application features.
- Participated in code reviews and followed clean coding practices.

Training

Full Stack Java Development

Kiran Academy, Pune | Nov 2025 – Present

Technologies Used: Java | J2EE | SQL

- Gained hands-on experience in web development projects using Java, J2EE.
- Developed strong debugging and problem-solving skills during project execution.
- Worked on real-world applications, improving coding efficiency and understanding of full-stack technologies.

Projects

E-COMMERCE STORE APPLICATION

Technologies Used: React.js | JavaScript | CSS | Local Storage

- Developed a responsive E-Commerce Store application with modern UI/UX.
- Implemented product listing, category filtering, search functionality, and shopping cart features.
- Added user authentication, product management, and responsive layouts.
- Designed a scalable component-based architecture using React.js.
- Enhanced user experience through dynamic rendering and interactive interfaces.

Employee Management System

Technologies Used: Spring Boot | REST API | MySQL | React.js | Postman

- Developed a full-stack application to manage employee records.
- Implemented CRUD operations using Spring Boot, React.js, and MySQL.
- Integrated REST APIs with React using Axios and tested them using Postman.

Extra-Curricular Activities

- Managing **Divya TechVerse**, a YouTube channel covering Java, Full-Stack Development, and self-development.
- Learning emerging technologies and developing software projects.
